ANIL SOLANKI

Full Stack Developer

📞 +91-8107010369   ⊙ anilsolanki9   ✉ anilsolanki.work1@gmail.com   in linkedin.com/in/anil-solanki

Summary

Full Stack Developer with strong hands-on experience in React, Node.js, Express, and MongoDB, gained through multiple real-world projects. Skilled in building responsive user interfaces, integrating APIs, and implementing authentication systems. Currently pursuing BCA (2027) and seeking opportunities to apply and grow full-stack development skills in real-world environments.

Skills

Frontend: HTML5, CSS3, SCSS, JavaScript (ES6+), React.js, Tailwind CSS
Backend: Node.js, Express.js, MongoDB, REST APIs, JWT, bcrypt
Developer Tools: Git, GitHub, Postman, Vercel
Languages: C, C++, Java, Python
Currently Learning: TypeScript, Next.js, Framer Motion, GSAP, Three.js, Docker, AWS

Projects

Astratto – Design Agency Website | *HTML, CSS, Tailwind CSS, React.js*   **Live Demo - Source GitHub**
- Developed a modern design agency website with a clean, premium user interface using React and Tailwind CSS.
- Implemented a reusable, component-based architecture to reduce code redundancy and improve maintainability.
- Created custom visual assets and images using AI-based image generation to support branding and presentation.
- Ensured full responsiveness across mobile, desktop, and large 4K displays with consistent layout behavior.

Productivity Dashboard | *HTML, CSS, JavaScript, OpenWeather API*   **Live Demo - Source GitHub**
- Developed a single-page productivity dashboard with smooth, lag-free interactions and no page reloads.
- Integrated real-time date, time, and location-based weather data using OpenWeather API.
- Implemented five productivity modules including Todo List, Daily Planner, Pomodoro Timer, Daily Goals, and Motivation Quotes.
- Persisted all user data using browser localStorage to maintain state across sessions.

Web-Based Editor | *HTML, CSS, JavaScript, Tailwind CSS*   **Live Demo - Source GitHub**
- Built a browser-based visual editor with a canvas-centered workspace inspired by design tools like Figma.
- Implemented multi-page support with independent layer stacks and z-index based element ordering.
- Enabled drag, resize, rotate, and keyboard-based element manipulation with real-time property controls.
- Added export functionality to generate project output as JSON or standalone HTML files.

Certifications

- **Meta Introduction to Frontend Development – Coursera (5 Sep 2025):** Completed the Introduction to Frontend Development course by Meta with 100% Grade. Learnt about day-to-day responsibilities of a web developer & get understanding of core technologies of web. Got introduces with HTML, CSS, modern UI frameworks like Bootstrap, React.
